

The Royal Free London NHS Foundation Trust Private Care

Edition 2

About the Royal Free London NHS Foundation Trust Private Care

Located in the heart of beautiful Hampstead, the Royal Free London Private Patients Unit (PPU) combines all the convenience, comfort, and personalised attention of a private hospital with the very best state-of-the-art services, technology and professional excellence you would expect from a top London teaching hospital. We are proud to bring the very best skills and standards of the NHS to the benefit of our private patients and, in doing so, support the continued development of the NHS Royal Free London through our success.

The Royal Free London NHS Foundation Trust is one of the largest care organisations in the United Kingdom, providing healthcare to more than 2 million patients each year through its main hospitals: The Royal Free Hospital, Barnet Hospital, Chase Farm Hospital, and Hadley Wood Hospital. In addition to a network of clinics available at Trust hospitals and other community locations.

We have been at the forefront of research and treatment since 1828 and continue to lead the way in improving healthcare in the 21st century, from targeted cancer and immunology therapies to new surgeries. In addition to providing an exceptional and expanded range of services to patients, we are a major campus of University College London Medical School (UCL is ranked as one of the top universities in the world). Our campus conducts important medical research of international relevance. We also specialise in training doctors, nurses, midwives, and many other healthcare professionals as a founding member of the Academic Health Sciences Network (University College London Partnership - UCL Partners).

The Royal Free London Hospital has consistently delivered among the highest survival rates and currently the second lowest UK hospital mortality, in addition to continuing its record of excellence in infection control.

We support the National Health Service

The Private Patients Unit is based in the NHS system and wholly owned by the Royal Free London Hospital's Founding Trust. This makes us unique as we reinvest all profits to securing the hospital's vital medical staff, equipment and research. In turn we are proud to bring the highest skills and standards of the NHS to the benefit of private patients in our hospital.

Treatment and services

We provide a full range of clinical services across 26 clinical specialties in various areas of medicine, surgery, diagnostics, outpatient and ambulant care, dialysis and cancer treatments. Our wide range of surgical treatments wherever possible focuses on robotic and minimally invasive procedures. We have advanced 'state of art' intensive care services on site to support our specialised care.

All our consultants are primarily based at the Royal Free Hospital thus constantly and readily available throughout the course of a patient's treatment. The patient will also be cared for by highly skilled nursing teams who have undergone training for the most complex needs.

Highest standard of private and pastoral care

We are committed to the highest standard of clinical care for our private patients who can be treated and recover in an environment and culture of comfort and personal attention together with professional excellence. Our PPU is renowned for its cultural and friendly personal service delivered by dedicated nursing, hospital care, translator and administrative staff to ensure a safe and enjoyable stay.

Professor George Hamilton
Professor of vascular surgery
Commercial medical director for private care

Breast surgery

Mr Muneer Ahmed
MA, PhD, FRCS (Gen Surg), FEBS (Breast Surgery)
Specialty: General surgery
Sub Specialty: Breast surgery
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Debashis Ghosh
M.S., FRCS (Edin), FRCS (Intercollegiate), FEBS (Breast), FEBS (Surgical Oncology)
Specialty: Breast and oncoplastic surgery
Languages: English and Hindi
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Cardiology

Dr Gerry J Coghlan
MB BCH, BAO MD MRCPI FRCP (Lon)
Specialty: Cardiology
Sub Specialties: Pulmonary hypertension, connective tissue and heart disease, angioplasty, interventional and general cardiology care
Languages: English
Location: Royal Free Hospital Hampstead

Dr Joseph Davar
MD, PHD, FRCP, FACC
Specialty: Cardiology
Languages: English, Russian and Georgian
Location: Royal Free Hospital Hampstead

Dr Parmajit Singh Jeetley
MRCP MD
Specialty: Cardiology
Sub Specialties: General cardiology, echocardiography, heart failure and valvular heart disease
Languages: English
Location: Royal Free Hospital Hampstead

Dr Sundeep Singh Kalra
MA HONS, MBBS, MRCP
Specialty: Cardiology
Sub Specialties: General cardiology, coronary artery disease, ischaemic heart disease, myocardial infarction, coronary revascularisation, preventative cardiology, hypertension, hypercholesterolaemia, arrhythmia management and heart failure
Languages: English, Urdu, Punjabi and Hindi
Location: Royal Free Hospital Hampstead

Mr Shyam Kolvekar
MBBS, MS, MCH, FRCPs, FRCS, FRCSTH
Specialty: Cardiology
Sub Specialties: Surgery for atrial fibrillation, minimally invasive maze operation, carcinoid heart valve disease, VATS, minimally invasive thoracic surgery, minimally invasive pectus correction (NUSS), OPCAB, beating heart coronary bypass surgery, mitral valve repair, minimally invasive mitral valve repair, robotics and ECMO
Languages: English, Hindi, Marathi and Gujarati
Location: Royal Free Hospital Hampstead

Dr Tim Lockie
MBChB, BSc. (FIRST CLASS HONS.), PhD, FESC
Specialty: Cardiology
Sub Specialty: Interventional cardiology
Languages: English
Location: Royal Free Hospital Hampstead

Dr Niket Patel
MBBS, BSC(1st CLASS HONS), MD(RES), FRCP
Specialty: Cardiology
Sub Specialties: Coronary angiography, coronary bypass graft assessment, pressure wire assessment, intravascular imaging (OCT and IVUS) and percutaneous coronary intervention (PCI, angioplasty and coronary stenting)
Languages: English and Gujarati
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr Joseph Tomson
MD 2016, CCT CARDIOLOGY 2015, MRCP ROYAL COLLEGE OF PHYSICIANS 2004
Specialty: Cardiology
Sub Specialties: Cardiovascular disease, cardiac function, cardiac rhythms, arterial stiffness, hypertension and CVD epidemiology
Languages: English, Malayalam and Hindi
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Colorectal and emergency surgery

Mr Colin Hart
MB CHB MD (RES) FRCS
Specialty: Colorectal and general surgery
Sub Specialties: Emergency surgery, hernias, the role of antioxidants in cancer and stem cells in ischaemia
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Ibnauf Suliman
BSC (HONS) BM FRCS (GEN SURG) MRCS
Specialty: Colorectal and general surgery
Sub Specialties: Bowel cancer, rectal cancer, colon cancer, bowel cancer screening, diverticular disease, rectal bleeding, rectal prolapse, anal pain, haemorrhoids, anal fissure, anal fistula, pilonidal sinus, perianal abscess, appendicitis and bowel obstruction
Languages: English, Arabic and BSL-1 sign language
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Reza Mirnezami
MBBS, BSC, FRCS, PHD
Specialty: Colorectal and general surgery
Languages: English and Farsi
Locations: Royal Free Hospital Hampstead

Dermatology

Dr Mia Jing Gao
MBBS, MA (Cantab), MRCP (Derm)
Specialty: Dermatology
Languages: English and Mandarin
Location: Royal Free Hospital Hampstead

Dr Mark Griffiths
BSC (HONS), MBChB, MRCP (DERM)
Specialty: Dermatology
Sub Specialties: Skin cancer, skin lesions, moles, skin surgery, psoriasis and general adult dermatology
Languages: English
Location: Royal Free Hospital Hampstead

Dr Adil Sheraz
MBBS, BMEDSCI (HONS), MRCP (UK), MRCP (Dermatology) (UK)
Specialty: Dermatology
Sub Specialties: Skin cancer, lesions, moles, psoriasis, eczema, inflammatory dermatoses, acne, rosacea and allergy
Languages: English, Urdu and Hindi
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Ear, Nose and Throat (ENT)

Mr Yogesh Bhatt
BSC (HONS), MBChB (HONS), FRCS(ORL-HNS), DCH (RCPCH), PgCertMedEd
Specialty: ENT
Sub Specialties: Head/neck, thyroid/parathyroid, salivary gland, paediatric ENT and dizziness/tinnitus
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Ravinder Natt
BSC, MBBS, MRCS, DO-HNS, FRCS (ORL-HNS)
Specialty: ENT
Sub Specialties: Head/neck surgery and paediatrics
Languages: English, Punjabi, Hindi and Urdu
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Cheka Spencer
MBBS, MSc, MRCS, DOHNS, GCAP, AFHEA, FRCS (ORL-HNS)
Specialty: ENT and head and neck
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Endocrinology

Dr Dipesh Patel
BSC MBBS PHD
Specialty: Endocrinology
Sub Specialties: Thyroid and parathyroid, adrenal, pituitary and polycystic ovarian syndrome, complex diabetes management, cardiovascular disease prevention and renal disease and lipids
Languages: English and Gujarati
Location: Royal Free Hospital Hampstead

Dr Ahmed Yousseif
MBChB, FRCP, PHD
Specialty: Diabetes and endocrinology
Sub Specialties: Complex diabetes, diabetes foot disease, weight management, bariatric medicine and thyroid disorders
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Gastroenterology

Dr Akeel Alisa
BSc , MB;BChir (Cambr.), FRCP (Londn.), MRCP (Gastro.), MD Res. (UCL), FRCP (London)
Specialty: Gastroenterology, hepatology and general physician
Sub Specialties: Gastroenterology, irritable bowel syndrome, coeliac disease, heartburn and acid reflux, abdominal pain, constipation, diarrhoea, inflammatory bowel disease, upper/lower diagnostic and therapeutic endoscopy, hepatology, abnormal liver tests, viral hepatitis, alcohol misuse, cirrhosis, fatty liver and non-invasive test for liver scarring (Fibroscan)
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr Edward Despott
MD MRCP(UK) MRCP(GASTRO) FEBGH MD(RES) (ADVANCED ENDOSCOPY)(IMPERIAL)
Specialty: Gastroenterology and advanced GI endoscopy
Sub Specialties: Device assisted enteroscopy (double-balloon enteroscopy (DBE) in particular), capsule endoscopy (CE), therapeutic colonoscopy (particularly complex polypectomy including large endoscopic mucosal resection (EMR)), transnasal upper GI endoscopy and diagnosis and management of inflammatory bowel disease and related complications such as endoscopic management of small bowel and colonic strictures
Languages: English
Location: Royal Free Hospital Hampstead

Gastroenterology *continued*

Dr Alberto Murino
MD
Specialty: Gastroenterology and GI endoscopy
Sub Specialties: Endoscopy, colonoscopy, capsule endoscopy, double balloon enteroscopy, endoscopy dilatation, percutaneous endoscopic gastrostomy, endoscopic mucosal resection (EMR), endoscopic submucosal dissection (ESD), irritable bowel syndrome, gastroesophageal reflux and gastrointestinal dysmotility disorders
Languages: English and Italian
Location: Royal Free Hospital Hampstead

Professor Christos Toumpanakis
MD PHD FRCP AGAF
Specialty: Gastroenterology and neuroendocrine tumours
Languages: English and Greek
Location: Royal Free Hospital Hampstead

Mr James Lee
BMBCh BA (Oxon) MRCP(UK) (Gastroenterology) PhD
Specialty: Colonoscopy, including dye spray surveillance colonoscopy, gastroscopy (OGD)
Languages: English
Location: Royal Free Hospital Hampstead

General medicine

Dr Akeel Alisa
BSc , MB;BChir (Cambr.), FRCP (Londn.), MRCP (Gastro.), MD Res. (UCL), FRCP (London)
Specialty: Gastroenterology, hepatology and general physician
Sub Specialties: Gastroenterology, irritable bowel syndrome, coeliac disease, heartburn and acid reflux, abdominal pain, constipation, diarrhoea, inflammatory bowel disease, upper/lower diagnostic and therapeutic endoscopy, hepatology, abnormal liver tests, viral hepatitis, alcohol misuse, cirrhosis, fatty liver and non-invasive test for liver scarring (Fibroscan)
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr Voon Ong
MRCP
Specialty: Rheumatology
Sub Specialties: Scleroderma and connective tissue diseases including: systemic lupus erythematosus, inflammatory myositis, vasculitis and raynaud's disease.
Languages: English and Mandarin
Location: Royal Free Hospital Hampstead

Dr Richard Stratton
MA PHD MD FRCP
Specialty: Consultant physician (rheumatology)
Sub Specialties: Acute inflammatory arthritis, SLE, crystal arthritis, lumbar disc prolapse and acute medical disorders
Languages: English
Location: Royal Free Hospital Hampstead

General surgery

Mr Muneer Ahmed
MA, PhD, FRCS (Gen Surg), FEBS (Breast surgery)
Specialty: General surgery
Sub Specialty: Breast surgery
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Professor Brian Davidson
MBChB MD FRCS
Specialty: HPB surgery
Sub Specialties: Liver surgery, biliary surgery, pancreatic surgery, liver transplant and laparoscopic cholecystectomy
Languages: English
Location: Royal Free Hospital Hampstead

Professor Giuseppe Kito Fusai
MS FRCS Professor of Surgery
Specialty: HPB surgery
Sub Specialties: Liver transplant surgery, oncological surgery and treatment modalities to increase the respectability of patients with advanced pancreatic cancer, cholangiocarcinoma and liver metastases
Languages: English and Italian
Location: Royal Free Hospital Hampstead

Mr Colin Hart
MB CHB MD (RES) FRCS
Specialty: General, colorectal and emergency surgery
Sub Specialties: Hernias, the role of antioxidants in cancer and stem cells in ischaemia
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

General surgery *continued*

Miss Theodora Pissanou
MD, Cum Laude
Specialty: HPB and general surgery
Sub Specialties: Sarcoma, liver tumours especially HCC and HPB conditions, general surgery, retroperitoneal tumours, liver transplantation and organ donation with focus on segmental transplantation and LDT
Languages: English and Greek
Location: Royal Free Hospital Hampstead

Mr Sakhawat (Zak) Rahman
MBCHB FRCS(GENSURG) MD
Specialty: HPB surgery
Sub Specialties: Pancreatitis and laparoscopic surgery for pancreatic tumours, gastric banding, gastric bypass, reflux disease, pancreatic cancer, gastric cancer, achalasia, gallstones, key-hole surgery, surgery for diabetes, gallstones and cholangiocarcinoma
Languages: English, Hindi and Punjabi
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Ibnauf Suliman
BSC (HONS) BM FRCS (GEN SURG) MRCS
Specialty: Colorectal and general surgery
Sub Specialties: Bowel cancer, rectal cancer, colon cancer, bowel cancer screening, diverticular disease, rectal bleeding, rectal prolapse, anal pain, haemorrhoids, anal fissure, anal fistula, pilonidal sinus, perianal abscess, appendicitis and bowel obstruction
Languages: English, Arabic and BSL-1 sign language
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Genito-urinary medicine

Dr Rimi Shah
FRCP MBBS MRCP DIP GUM DFRSH
Specialty: Genitourinary and HIV medicine and sexual health
Sub Specialties: Chronic and recurrent genital conditions and STIs/HIV in women
Languages: English and Gujarati
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Geriatric medicine

Dr Anne Davies
MB BCH BAO MD FRCP (UK)
Specialty: Geriatric medicine
Sub Specialties: Health service for the elderly people, falls prevention and bone health and treatment of vertigo
Languages: English
Location: Royal Free Hospital Hampstead

Dr Dean J Noimark
MRCP, BSc
Specialty: General and geriatric medicine
Languages: English
Location: Royal Free Hospital Hampstead

Haematology

Dr Pratima Chowdary
MRCP, FRCPath
Specialty: Haematology
Languages: English
Location: Royal Free Hospital Hampstead

Dr Keith Gomez
MBBS MRCP FRCPath PhD
Specialty: Haematology
Sub Specialties: Bleeding disorders including: haemophilia, von willebrand disease and platelet dysfunction. Thrombotic disorders including: deep vein thrombosis and pulmonary embolism thrombophilia
Languages: English
Location: Royal Free Hospital Hampstead

Dr Parag Jasani
MB BS; FRCP; FRCPath
Specialty: Haematology
Sub Specialties: Haemato-oncology, abnormal blood counts, coagulation disorders, raised or reduced iron levels and various haematological cancers
Languages: English, Hindi, Gujarati, Marathi and Urdu
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Haematology *continued*

Dr Ash Wechalekar
MBBS, MD, FRCP, FRCPATH, DM
Specialty: Haematology
Sub Specialties: Myeloma, amyloidosis, waldenstrom's macroglobulinaemia, plasma cell dyscrasia and renal disease
Languages: English
Location: Royal Free Hospital Hampstead

Professor Derrallynn Hughes
Clinical director of research and innovation at the Royal Free London, Co-clinical director of the North Central London cancer alliance, Professor of experimental haematology, University College London
Specialty: Lysosomal storage disorders
Languages: English
Location: Royal Free Hospital Hampstead

Hepatology

Dr Akeel Alisa
BSC, MB;BChir (Cambr.), FRCP (Londn.), MRCP (Gastro.), MD Res. (UCL), FRCP (London)
Specialty: Gastroenterology, hepatology and general physician
Sub Specialties: Gastroenterology, irritable bowel syndrome, coeliac disease, heartburn and acid reflux, abdominal pain, constipation, diarrhoea, inflammatory bowel disease, upper/lower diagnostic and therapeutic endoscopy, hepatology, abnormal liver tests, viral hepatitis, alcohol misuse, cirrhosis, fatty liver and non-invasive test for liver scarring (Fibroscan)
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Professor Rajiv Jalan
MBBS MD PhD FRCP FRCPE FAASZD
Specialty: Hepatology
Languages: English
Location: Royal Free Hospital Hampstead

Dr Yiannis Kallis
MA (HONS) MB BCHIR PHD FRCP
Specialty: Hepatology and gastroenterology
Sub Specialties: Fatty liver disease, alcohol related liver disease, liver transplantation including living related donor transplant, cholangitis and autoimmune liver disease, cirrhosis, liver cancer and disorders of the pancreas, gallbladder and bile duct
Languages: English
Location: Royal Free Hospital Hampstead

Professor Kevin Moore
MB BS FRCP BSC PH.D
Specialty: Liver medicine and hepatology
Sub Specialties: Alcoholic liver disease and alcohol misuse, liver screening, fatty liver disease, abnormal liver function tests, complications of cirrhosis, ascites, hepatorenal syndrome (acute kidney injury in cirrhosis) and acute on chronic liver failure
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr David Patch
MB BS FRCP
Specialty: Hepatology
Sub Specialties: Liver transplantation
Languages: English
Location: Royal Free Hospital Hampstead

Professor Massimo Pinzani
MD, PHD, FRCP
Specialty: Hepatology
Sub Specialties: Chronic liver diseases, cirrhosis, hepatocellular carcinoma and primary liver cancer
Languages: English
Location: Royal Free Hospital Hampstead

Professor Emmanouil Tsochatzis
MD, MSC, FEBTM, PHD
Specialty: Hepatology
Languages: English
Location: Royal Free Hospital Hampstead

HPB surgery

Professor Brian Davidson
MBChB MD FRCS
Specialty: HPB surgery
Sub Specialties: Liver surgery, biliary surgery, pancreatic surgery, liver transplant and laparoscopic cholecystectomy
Languages: English
Location: Royal Free Hospital Hampstead

Professor Giuseppe Kito Fusai
MS FRCS Professor of Surgery
Specialty: HPB surgery
Sub Specialties: Liver transplant surgery, oncological surgery and treatment modalities to increase the respectability of patients with advanced pancreatic cancer, cholangiocarcinoma and liver metastases
Languages: English and Italian
Location: Royal Free Hospital Hampstead

Mr Charles Imber
MD FRCS MB. BCHIR. BSC. HONS
Specialty: HPB surgery
Sub Specialties: Colorectal liver metastases, cholangiocarcinoma, pancreatic cancer, hydatid disease of liver, complex abdominal wall hernias, groin pain and inguinal hernias, gall bladder disease, liver transplantation and general surgery emergencies
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Miss Theodora Pissanou
MD, Cum Laude
Specialty: HPB and general surgery
Sub Specialties: Sarcoma, liver tumours especially HCC and HPB conditions, general surgery, retroperitoneal tumours, liver transplantation and organ donation with focus on segmental transplantation and LDT
Languages: English and Greek
Location: Royal Free Hospital Hampstead

Mr Sakhawat (Zak) Rahman
MBChB FRCS(GENSURG) MD
Specialty: HPB surgery
Sub Specialties: Pancreatitis and laparoscopic surgery for pancreatic tumours, gastric banding, gastric bypass, reflux disease, pancreatic cancer, gastric cancer, achalasia, gallstones, key-hole surgery, surgery for diabetes, gallstones and cholangiocarcinoma
Languages: English, Hindi and Punjabi
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr Peter Dupont
MB BCh BAO (HONS) LRCSI LRCPI MRCPI DIC PhD FRCPI
Specialty: Nephrology
Sub Specialty: Renal transplantation
Languages: English
Location: Royal Free Hospital Hampstead

Dr Nasirul Ekbal
PHD PGCME MRCP FFICM
Specialty: Nephrology
Sub Specialties: Renal replacement therapies (both dialysis and CVVH), the management of acutely unwell patients and managing in-patients undergoing rehabilitation post ICU discharge
Languages: English and Bengali
Location: Royal Free Hospital Hampstead

Dr Rhys Evans
MA (Cantab), MBBS, MRCP, PhD
Specialty: Nephrology
Sub Specialties: Transplantation
Languages: English
Location: Royal Free Hospital Hampstead

Professor Daniel Gale
St Peter's Professor Of Nephrology
MA MB BChir PhD FRCP
Specialty: Nephrology
Sub Specialties: Genetic kidney diseases, polycystic kidney disease, alport syndrome, microscopic haematuria, thin basement membrane nephropathy, familial kidney disease, MPGN, C3 glomerulopathy and genomic medicine
Languages: English
Location: Royal Free Hospital Hampstead

Dr Mark Harber
MBBS PHD (IMMUNOLOGY)
Specialty: Nephrology
Sub Specialties: General medicine, renal transplantation and infection diseases involving the kidney and urinary tract
Languages: English
Location: Royal Free Hospital Hampstead

Dr Philip Masson
MBChB, MRCP(UK), PHD
Specialty: Nephrology
Sub Specialties: Transplantation and clinical transplantation (including living donor assessment, long-term follow-up and low clearance transplantation)
Languages: English
Location: Royal Free Hospital Hampstead

Dr Shabbir Moochhala
BSC (HONS) MBChB PHD FRCP (EDIN)
Specialty: Nephrology
Sub Specialties: General medicine, hypertension, chronic kidney injury, acute kidney injury, fluid and electrolyte disorders, renal stone prevention and common and rare kidney diseases
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr Ruth Pepper
BSC, MBBS, MRCP, PHD
Specialty: Nephrology
Sub Specialties: Lupus, vasculitis and nephrotic syndrome
Languages: English
Location: Royal Free Hospital Hampstead

Professor Alan Salama
MBBS MA PHD FRCP
Specialty: Nephrology
Sub Specialties: General medicine, polycystic kidney disease, vasculitis, SLE, autoimmunity and transplantation
Languages: English and French
Location: Royal Free Hospital Hampstead

Neuroendocrine tumour (NET) Neurology and neurophysiology

Professor Christos Toumpanakis

MD PHD FRCP AGAF

Specialty: Gastroenterology and neuroendocrine tumours (NETs)

Languages: English and Greek

Location: Royal Free Hospital Hampstead

Dr Heather Angus-Leppan

MBBS HONS, MSC, MD, FRACP, FRCP

Specialty: Neurology

Sub Specialties: Epilepsy and blackouts, headache and migraine, chronic pain and clinical research

Languages: English, German and Spanish

Location: Royal Free Hospital Hampstead

Dr Bal Athwal

BSC MSC MBCHB FRCP

Specialty: Neurology

Sub Specialties: Headache, migraine, botox treatment, stroke, stroke prevention and neurological rehabilitation

Languages: English

Location: Royal Free Hospital Hampstead

Dr Alexis Hadjipourou

BMEDSCI, BMBS, MRCP(UK)

Specialty: Neurology

Sub Specialties: Neuromuscular disease and epilepsy

Languages: English

Location: Royal Free Hospital Hampstead

Dr Rebecca Liu

BSC (HONS), MBBS, PHD, FRCP (LON)

Specialty: Neurology

Sub Specialties: Broad spectrum of neurological conditions including: headache, blackouts, dizziness and medically unexplained symptoms and all aspects of seizure management from recently diagnosed to difficult to control epilepsy

Languages: English and Cantonese

Location: Royal Free Hospital Hampstead

Miss Mary Murphy

MB BCH BAO FRCS(SN)

Specialty: Neurosurgery

Sub Specialties: Back pain, sciatica, neck pain, brachialgia, degenerative spine, peripheral nerve, neurovascular problems, brain tumours, hydrocephalus and cyber knife and gamma knife treatments

Languages: English

Location: Royal Free Hospital Hampstead

Dr Alexander Thomas Tidswell

MB BChir, FRCP (UK), PhD

Specialty: Clinical neurophysiology

Sub Specialties: Electroencephalography (EEG) in adult and paediatric epilepsies, peripheral neurophysiology (including the investigation of nerve entrapments or injury), neuropathies and myasthenia and neurophysiological investigation of paediatric neuromuscular disease

Languages: English

Location: Royal Free Hospital Hampstead

Dr Bryan D Youl

BMEDSC MD FRCP

Specialty: Neurology

Sub Specialties: Peripheral nerve entrapments and other disorders

Languages: English

Location: Royal Free Hospital Hampstead

Obstetrics and gynaecology

Dr Rezan A Abdul-Kadir

MB CHB ABCOG MRCOG FRCS MD

Specialty: Gynaecology

Sub Specialties: Fetal medicine, bleeding disorders in women, menorrhagia, recurrent miscarriage, obstetric and gynaecology ultrasound, genital tract prolapse and benign gynaecological problems

Languages: English

Location: Royal Free Hospital Hampstead

Mr Demetrios L Economides

MD FRCOG

Specialty: Gynaecology

Sub Specialties: Ultrasound, miscarriages, early pregnancy and general gynaecology

Languages: English

Location: Royal Free Hospital Hampstead

Miss Eleni Mavrides

MBBS MD(LON) MRCOG

Specialty: Obstetrics and gynaecology/minimal access surgeon

Sub Specialties: Laparoscopic (keyhole) surgery, pelvic pain, ultrasound and abnormal bleeding

Languages: English and Greek

Location: Royal Free Hospital Hampstead

Ms Henna Mohiudin

MBBS, MRCOG, DFFP, DIPLOMA OF OPERATIVE ENDOSCOPY IN GYNAECOLOGY

Specialty: Obstetrics and gynaecology

Sub Specialties: Reproductive medicine, subfertility, laparoscopic surgery, reproductive endocrinology, uterine fibroids, adenomyosis, pelvic endometriosis, ovarian cysts, menstrual disorders, heavy periods, vaginal cysts, bartholin's cysts, uterine polyps and pelvic pain

Languages: English, Urdu and Hindi

Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Oncology *(cancer treatment including radiotherapy and chemotherapy)*

Dr Ekaterini Boleti
MD, PhD, MRCP
Specialty: Medical oncology
Sub Specialties: Chemotherapy, general oncology, lung cancer and thoracic cancers
Languages: English
Location: Royal Free Hospital Hampstead

Dr Nikolaos Diamantis
MD, PhD, MRCP(UK)
Specialty: Medical oncology
Sub Specialties: Gastrointestinal cancers, neuroendocrine tumours (NETs)
Languages: English and Greek
Location: Royal Free Hospital Hampstead

Dr Roopinder Gillmore
MA MRCP PHD
Specialty: Medical oncology
Sub Specialties: GI malignancies, upper GI, lower GI cancers, hepatico-pancreatico-biliary tumours and cancer of unknown primary
Languages: English
Location: Royal Free Hospital Hampstead

Dr Daniel Krell
MRCP, BSc, DPhil
Specialty: Medical oncology
Sub Specialties: The systemic treatment of colorectal, gastro-oesophageal, pancreatic and liver and bile duct cancers and cancer of unknown primary, medical oncology, clinical lead for cancer of unknown primary and MDT lead for upper gastro-intestinal cancer at Barnet hospital
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Dr Sarah Needleman
MBBS BSC MRCP FRCR MSC PGCERT FHEA
Specialty: Clinical oncology
Sub Specialties: Radiotherapy for breast and urological malignancies
Languages: English
Location: Royal Free Hospital Hampstead

Dr Amna Sheri
MRCP MD(RES)
Specialty: Medical oncology
Sub Specialties: Adjuvant therapy, neo-adjuvant therapy, treatment of secondary breast cancer, breast cancer in young women, novel biological and targeted therapies and immunotherapy
Languages: English
Location: Royal Free Hospital Hampstead

Ophthalmology

Mr Riaz Asaria
BM MD FRCOPHTH
Specialty: Ophthalmology
Sub Specialties: Retina and cataracts
Languages: English
Location: Royal Free Hospital Hampstead

Mr Zine Elhousseini
MD, FRCOPHTH
Specialty: Vitreoretinal surgery, medical retina, cataracts and refractive laser surgery
Languages: Arabic and English
Location: Royal Free Hospital Hampstead

Mr Saurabh Jain
MBBS MS FRCOPHTH
Specialty: Ophthalmology
Sub Specialties: General ophthalmology, paediatric ophthalmology and strabismus and cataract surgery
Languages: English
Location: Royal Free Hospital Hampstead

Mr Nick Koutroumanos
MBBS FRCOPHTH PGC CLIN ED FHEA
Specialty: Ophthalmology and oculoplastic surgery
Sub Specialties: Functional and aesthetic eyelid surgery, watery eye and dry eye, thyroid eye disease, periocular trauma (around the eye) and periocular cancer removal and reconstruction
Languages: English and Greek
Location: Royal Free Hospital Hampstead

Mr Danny Mitry
MB BCH BAO MRCSI FRCOPHTH PHD
Specialty: Ophthalmology
Sub Specialties: Medical and surgical retinal disease, laser treatment and microincision cataract surgery
Languages: English, French and basic Arabic
Location: Royal Free Hospital Hampstead

Osseointegration *(by Relimb)*

Mr Norbert Kang
MBBS MD FRCS (PLAST)
Specialty: Plastic surgery
Sub Specialties: Osseointegration, prominent ears, hand surgery – especially rheumatoid arthritis and reconstruction after trauma, prosthetic reconstruction of the upper limb, hypospadias and general reconstruction of male genitalia, skin lesions and skin cancer, targeted muscle reinnervation and amputee revision
Languages: English
Location: Royal Free Hospital Hampstead

Mr Alex Woollard
BM, BSC, PHD, FRCS (PLAST)
Specialty: Plastic surgery
Sub Specialties: All aspects of aesthetic surgery, breast surgery and reconstruction, lower limb reconstruction, amputee osseointegration and targeted muscle reinnervation (TMR)
Languages: English
Location: Royal Free Hospital Hampstead

Plastic surgery

Mr Shadi Ghali
MBBS, BSC, MD, FRCS(PLAST)
Specialty: Plastic surgery
Sub Specialties: Microvascular reconstructive surgery and all areas of cosmetic surgery
Languages: English and Arabic
Location: Royal Free Hospital Hampstead

Mr Stephen Hamilton
MB CHB FRCS(GLAS) FRCS(ED) MD FRCS(PLAST)
Specialty: Plastic surgery
Sub Specialties: Skin lesions and skin cancer, breast reconstruction and asymmetry, cosmetic surgery of the face, breasts and abdomen and liposuction
Languages: English
Location: Royal Free Hospital Hampstead

Mr Norbert Kang
MBBS MD FRCS (PLAST)
Specialty: Plastic surgery
Sub Specialties: Osseointegration, prominent ears, hand surgery – especially rheumatoid arthritis and reconstruction after trauma, prosthetic reconstruction of the upper limb, hypospadias and general reconstruction of male genitalia, skin lesions and skin cancer, targeted muscle reinnervation and amputee revision
Languages: English
Location: Royal Free Hospital Hampstead

Professor Afshin Mosahebi
MBBS FRCS FRCS(PLAST) PHD MBA
Specialty: Plastic surgery
Sub Specialties: All aspects of cosmetic surgery, trauma and oncological breast reconstruction, complex microsurgical skin cancer, rejuvenation and body contouring and pioneering research on use of stem cell technology and tissue regeneration
Languages: English and Persian
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Greg O'Toole
MBCHB MD FRCS(PLAST)
Specialty: Plastic surgery
Sub Specialties: Ear reconstruction (EarFold and EarStitch), microtia surgery, earlobe reduction, revision ear surgery and otoplasty
Languages: English and French
Location: Royal Free Hospital Hampstead

Mr Dariush Nikkhah
BM, MSc(Dis), FRCS(PLAST)
Specialty: Plastic and reconstructive surgery
Languages: English
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Walid Sabbagh
MB CHB MSC FRCS FRCS(PLAST)
Specialty: Plastic surgery
Sub Specialties: Ear reconstruction, cosmetic rhinoplasty and cosmetic breast surgery
Languages: English and Arabic
Locations: Royal Free Hospital Hampstead, Hadley Wood Hospital Barnet

Mr Alex Woollard
BM, BSC, PHD, FRCS (PLAST)
Specialty: Plastic surgery
Sub Specialties: All aspects of aesthetic surgery, breast surgery and reconstruction, lower limb reconstruction, amputee osseointegration and targeted muscle reinnervation (TMR)
Languages: English
Location: Royal Free Hospital Hampstead

Renal transplant

Mr Makis Laftsidis
Regional Director for London North Central, Royal College of Surgeons
Specialty: Consultant transplant and vascular access surgeon
Sub Specialties: Kidney transplant, robotic assisted laparoscopic surgery
Languages: English
Location: Royal Free Hospital Hampstead

Miss Fiona McCaig
